

Basis for Fare Calculation & Discount Offer:

Single Route:

1. **Actual bus fare:** Bus fare is the exact fare of the distance to be traveled by a passenger.
2. **Traveling privilege:** A minimum daily travel of two times (to and fro) is taken into account.
3. **No. of working days:** In a month only 26 days are counted as working days and four Sundays are not included in the fare calculation.
4. **Rate of Discount:** In order to popularize the use of Prepaid Cards, the system provides a huge discount on the actual bus fare. There are five different offers and the rates of discounts vary from 20% to 50% for students and 20% to 40% for others.
5. **Round off:** All the figures in the fare chart are rounded off to nearest Nu. 5 for case of calculation.

Multiple Routes:

1. **Actual Bus Fare:** We have taken in the account a bus fare of one passenger traveling in two routes, maximum and minimum distance and practical one day fo movement of passenger in an hour.
2. **Traveling privilege:** A minimum travel in a day is taken for two times (to & fro) in the minimum of two routes.
3. **Rate of discount:** The discounts offered in this system are slightly higher than the single route. Here, it starts from 35% to 55% for students and from 25% to 45% for others.
